**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Please ensure that this current proposal is refused. This is what I would call unsustainable development as the proposed development sits in a wildlife corridor which is essential for fauna and flora biodiversity and habitat connectivity. Should this go ahead it would be of great concern, and in my view set a precedence that developments are valued more than our own fauna and flora. What a great shame and loss it would be for the people of the northern beaches, Sydney and NSW.  
Best regards,
