RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

This corner space needs to be carefully designed to make Robertson Road an inviting entrance. At the moment, the plan makes it tricky to have any decent pedestrian space along the street.

The current plan looks too high in some areas for this zone.

Overall, the design is not attractive and doesn't encourage people to want to enter Robertson Road.

Come on Council, let's have some common sense and ask these developers/designers to design a great space for the general public. Please. Thank you!
