**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I object to the development in the Bayview Wildlife Corridor amended plans for DA2017/1274. This is still disruptive during development and removes trees and space for wildlife. The amendment barely improves impact on the known species, including threatened species, that live, cross through and feed in that corridor. How many times does this destructive and inappropriate development have to be objected to? It will adversely impact on our wildlife and it is out of character for the area. There are better sites to build without more destruction of green space.
