RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Re DA 2017/1274 Proposed 95 Units at Bayview Golf Club
Please under no circumstances should this development be allowed to proceed. It will cut directly through an essential wildlife corridor. The wildlife in Pittwater is already under much pressure from over-development everywhere - it needs to be protected and nurtured, not obliterated. The development is just too big for the area. There are already three existing over 50's developments in the area and no more is needed. Hopefully the Golf Club Board can come up with other sustainable ways to raise funds without destroying the beauty of the area and without impacting on any wildlife. Residential development is not the answer.
