**Subject:** objections to DA2017/1274

Dear councillors,

The proposed development is not in the public interest as majority of the community don't want it and it is only of benefit to Club members.

The land that has been designated for development is a high priority wildlife corridor and this should have been considered in the public interest.

200 Extra residents will cause damage to the wildlife by entering bushland around the wildlife corridor which is habitat of vulnerable species and also adjoining private bushland. In addition noise and lights from 4 storeys plus rooftop areas, plus restaurant, community centre, winery, cafe and 95 apartments with parking for 200 cars will significantly affect the amenity of nearby residents and impact wildlife. The proposed height and bulk creates a drastic 'change in streetscape' and it breaches the local LEP height requirement.

Please take these objections into careful consideration,

Yours sincerely,

Karen Plummer
