RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species. This is Biodiversity land and should not be destroyed by this development. There have been so many signatures and submissions of people opposed to this development so why is it being reconsidered forcing all to resubmit their objections.

It is appalling that these development companies are permitted to chip away at public protest with new applications. Surely applications denied cannot be slightly modified and be allowed to be resubmitted. Please do the only thing for wildlife that it needs ie protect the habitats of species. We cannot keep destroying habitats without regard to the wildlife that depends on it. Who do these developers think they are.

Money isn't everything. Quality of life for all creatures is the greatest priority for us all.

yours sincerely,
Eli Sky
