RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

I'm telling you as someone that grew up on this beach Collaroy to Narrabeen and ran it every morning before school .

Now 20yrs on a rate payer and member of multiple communities on the northern beaches , this is appalling and needs to stop immediately! !!

Solutions exist to preserve water front homes if that is the only true objective \$\$, this will be damaging to the beach for generations.

Pumping sand and actually planting native grasses and allowing sand to do its work instead of built out block apartments and custom houses.

I cannot understand how these projects pass environmental effects not to mention community consultation , we said no 20yrs ago and nothing has changed only a greedy demographic .

South Narrabeen is one of the best and most famous surf spots on the beaches when it's big and a treasure to so many famous professional surfers and local legends , now a serious backwash is a health hazzard. Knees , spinnals !

How is a swimmer in a rip supposed to return to shore when the wall begins to undermine and make it ashore to these street access stairs?? . This is total negligence and aragance on the councils behalf . When the sand erodes from the base of the wall??

Not much thought has gone into this mess .

So what in the end you preserve the worst development in the councils history a little longer .
