RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please don't allow the destruction and devastation to what is precious and irreplaceable to go forward. There are so many alternative options for such a development to proceed successfully for all. The over development that is occurring right across greater Sydney and the destruction of the food bowl and environmental habitats for housing is beyond reasonable thought and process by the powers that make these decisions. Save this unique area.

Many thanks
