RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam

I have followed this saga since the beginning. I am a Bayview member who fully supports this development not because the Club may go under if it does not go through, it will not. Bayview golf club will continue as before.

However I have found the process that has been ongoing to be very biased.

In the most recent letter received should the heading not read '95' units but '85'. The letter also mentions if you have any 'issues of concern' regarding this development you may make a submission. Should you not also encourage those who believe it is a good development not also be encouraged to make a submission.

My husband and I sat in Council Chambers whilst many people spoke negatively about the development many with their facts incorrect but at no time were they interrupted or scoffed at. Trust me it was very difficult to cop the untruths.

This development will enable us to maintain the course/waterways and open space in a superior way if the development goes through.

I ask you accept the development as amended.

Regards Vicki Edmondson
