Good Morning

I am writing in support of the upgrade to Bayview Golf course and seniors housing

I have seen the plans and think the building of new seniors housing is a great idea to provide this much needed housing

The latest design plans are environmentally friendly and do not appear to adversely affect existing property owners

The new tree planting will provide extensive new habitats for local wildlife

Lastly, the improvement to local sporting facilities will be boost to the local area

I strongly support this proposal and encourage you to do the same

Regards
