Rob

I write on behalf of Steve and myself in relation to the DA for 351 Barrenjoey Road

I cannot believe with the amount of community objection that you have had about this proposal that you are still planning to go ahead and approve this

This whole development is absolutely appalling and will do absolutely nothing for Newport. Not only is it horrendous to look at but actually detracts from the Newport community feel both in terms of design and access.

You live in Newport! Is there nothing that can be done here

We totally appreciate that developments need to happen but our ask is that you work with the community to do this in the right way.
