RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam,

Although I do not live in NSW I see the impact of clearing of essential wildlife corridors first hand, as a birdwatching guide. Please consider the future you wish to see for the coming generations. Will they not accuse you of destroying the habitat of creatures which may well die out because of your decision? Please ensure the corridor is preserved intact for all.

Yours sincerely, Carol Iles
