RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

At some point, residents, ratepayers and voters across Australia must say enough is enough. The ugly, gross overdevelopment proposed defies words really.

The continual destruction of habitat has severe consequences for the ecosystem. In many places we are seeing displaced, important wildlife being disoriented and threatened by the human plague.

There is no liveability at all in an apartment of the proposed density. They are merely sleeping quarters - if indeed one can get to sleep at all.

It is time for all 'developers' to consider the big picture. No-one wants to live like a battery cage hen. Unfortunately buyers find out too late what life is like in such a place. Most people have 'developer' fatigue and are seeking ways to reverse the descent of our cities into major slums.

This is a great opportunity for you to lead and say no.
