Subject: Re submission of objection to DA2017/1274

To whom it may concern

I hereby wish to express my objection to the proposed development on the parcel of land , which the Bayview Golf Club sold to a developer.

I think that another acreage of bush land that will be disturbed and ultimately disappear, will be a huge tragedy.. This is such an attractive and quiet spot. The silence only broken by the occasional thwack of a golf ball. The golfers and the native creatures have lived side by side with the homeowners on the fringes for a long time.

I would like to hope that this development could be halted and that is why I wish to lodge my objection to the proposed building of several stories of retirement apartments with underground parking ,shops etc. This quiet neck of the woods should be left undisturbed in my opinion.

Thank you for your consideration of my objection

Yours sincerely

Mrs Ann Greensill
