RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Wildlife needs our help with threats to survival on all fronts. Countries such as Australia should be leading the way in understanding the needs of our own creatures, their pathways, their songlines. Ignorance is no defence in law, and neither should it be in development. Let's develop with compassion, enlightenment, embracing the stunning diversity of wildlife that surrounds us. We will all be the richer for it, not just a few developers wanting to make a quick dollar from yet more apartments.
