RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100

Allambie Heights does not have the infrastructure to handle the additional load of this proposed boarding house, let alone the others that would follow if a precedent is set. Because of the limited public transport, boarding houses will result in many more cars being required then parked on the road. They will also put pressure on the traffic and chaos on the backroads at peak times.

I fear it is only a matter of time before a child is injured trying to navigate all the parked cars as they make their way to school as there are no footpaths on the backroads and Allambie Rd is too dangerous with all the side streets.

Allambie is such a lovely little suburb but it already struggles with a lack of infrastructure. The addition of boarding houses will destroy the feel and livability of the village.

Regards,

Chantal
