Subject: DA2017/1274

I Catherine McDonald would like to submit my support for the development of Bayview Senior's Housing and Golf Course.

I feel that additional senior's accommodation is much needed in the area and that these buildings are environmentally and appropriately planned for the site.

Additional tree planting and improved flood mitigation will also be carried out to address any issues.

I also feel that this will improve the community and sporting facilities which are much needed in the area.

Regards

Catherine McDonald
