**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I object to this development on the grounds that it is an oversized development of one of the largest wildlife corridors left on the Northern beaches,

It is home to eight vulnerably listed species as well as numerous flora and fauna close to being listed as well ,

As with the previous councils rejection of this development on the grounds of size / bulk and not being compatible with the surrounding area , one thing that really is a cause for concern is the impact that it will have on biodiversity which will be substantial and adverse.

Can you also please let me know if this developments foot print includes areas of asset protection ?.

Regards Stephen Gray.
