****Subject: Concerns Regarding Proposed Bus Stop Relocation****

Dear Council,

I am writing to express my concerns about the proposed relocation of the bus stop. I believe the new location at the bottom of the hill is highly unsafe due to several factors:

1. ****Speeding Vehicles****: Cars often speed down the hill, posing a significant risk.
2. ****Parking Lot Traffic****: Vehicles exiting the car park frequently add to the congestion and hazards.
3. ****Pedestrian Danger****: People regularly run across the road in this area, and there is a history of accidents here.

Given these issues, I am deeply concerned that moving the bus stop would lead to a serious accident. I urge you to reconsider this proposal in the interest of public safety.

Sincerely, Heidi Stojic
