RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

We object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species. This is Biodiversity land and should not be destroyed by this development. The invalidity of this proposed development was upheld by council and the land and environment court in previous application. The facts have not changed - this is a crucial high priority wildlife corridor in an area where there is no substitute available due to existing density. Preservation of this corridor represents the only option for survival for our vulnerable threatened species, who form an integral part of the intrinsic character of this area.
