**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW  
2099**

The mobile tower is proposed to be erected on the Abbott Road sports fields. These fields are a primary sports ground not only for our extended community but for young children. The proposed location is furthermore within the minimum legal distance from the local public school. This area and community is significantly made up of young families and children. When there is so much evidence available regarding the detrimental effects of mobile towers to young children's development, the location of this proposed site is absolutely absurd. We need to put our children's and communities health, safety and wellbeing as a priority. As a council you should represent the community's wellbeing. We strongly oppose to this application. Please listen to the community and do the right thing by listening to your citizens.

Best Regards,  
David and Family
