Despite moving to the Central Coast I am very concerned for the future of Australia. Listening to the discussion on population is obvious money and self interest are the issue. If you continue to cover the land with concrete you will die of starvation too. If the northern hemisphere need to come and fish down south doesnt that ring a bell. Too many people .Development needs to stop and take the time to clean up the mess the rich have made.  
If you pass this development you are responsible for your childrens future!!!!!!
