RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

Dear Whomever this may concern,

I am opposing the development of the telecommunication tower at Abbott Road Park. There currently is no need for this development as the Optus Coverage is great and I have no issues on it. As per the Optus website: •

<https://www.optus.com.au/about/network/coverage>

Voice and Text - Great

- Email - Great
- Internet - Great

This Communication Tower would also be placed within 100m from residents, 350m from a school and this completely contradicts the statement "not near community sensitive locations", which is absurd.

The Reserve is currently beautiful and the installation of this tower would negatively affect the aesthetics of the reserve.

For the points outlines above I strong oppose the development and ask for it to be cancelled as it is against the demands of the community.

Regards

Victor Mady
