RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I fully support this development application.

5% of the golf course is being used to save 95%!
The green space and iconic golf course will remain if this development is approved.
Has anyone considered what will happen to the golf course if this fall through?

How can planting 7000+ native plants and trees destroy a wildlife corridor? It is creating one!!!
