**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

At some stage council must consider the impact of over development and the pressure it puts on wild life and the community.

We are reaching a point where too much development is affecting the very existence of many everyday creatures.

Surely we can keep some areas development free for all living creatures to exist and enjoy.

We need to consider other options and try to stop the urban sprawl.

It is out of control and is profit driven with very little consideration for key factors such as infrastructure to supply the demand required. That in turn impacts on the environment and therefore the community.
