RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please ban any development whatsoever in this precious wildlife corridor. The wipeout of species animal or plant would be devastating for the Australian people who value nature strips. Too many green corridors have been wiped out due to utter greed and short term gain. Preservation of these rich environments makes a healthy eco system contributing to healthy air, space for quality of lives too. Don't let it go, as it would be forever....

Kind Regards
Jan
