RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species
This is Biodiversity land and should not be destroyed by this development.

Money or profit should not be the determining factor. Today's generation need to think of the generations to come. Biodiversity makes for a healthier lifestyle for both people, fauna and flora. We need trees, etc. for a healthier climate. We do not want to become like some Chinese cities with air causing ill health due to pollution. Surely, governments do not want to spend unnecessary funds trying to save species from extinction.

Some country towns are crying out for more inhabitants to remain viable.
All cities need open and also protected areas to create 'lungs' for people and animals.
