RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please protect the wildlife corridor. Consider this and objection pertaining to DA1274/17 - I understand this is now an appeal and therefore I tender this objection to the DA for your Statement of facts and contentions based on significant localised environmental impacts on wildlife and an overdevelopment of the area. Please protect the northern beaches - it was such a beautiful place because of the precarious balance between the protection of the natural environment and development - anything impacting on wildlife corridors tips that balance and will result in long term negative impacts.
