**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I object most strongly to this development being approved, amendments or not. Preservation of wildlife corridors is more important than anything else, unless we are prepared to live in a world with only our domestic pets, animals some people eat and vermin.

This developer has had another DA refused and appealed at 169 Forest Way Belrose (DA2017/0237) for a retirement development that was also not suitable for the location and involved environmental destruction.

The roads and parking on the Northern Beaches are already a nightmare and over development has already taken a heavy toll on wildlife through loss of habitat.

Please stop this development.
