MR Chris Tobin
43 Binalong AVE
Allambie Heights NSW 2100

RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100

I would like to express my concerns about this development. Allambie Heights is a low density area characterized by families living, working and contributing to the community. This requires stability and permanence of residence - that this development does not support. I believe the proposed development will add congestion to traffic, strain our resources (such as waste collection / disposal) and disproportionately increase the local population relative to available infrastructure. The fact that the applicant is a business pty ltd registered ACN - is also a major concern. The development (for residential purposes) is being proposed by a business - not a local resident.
