RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

STOP THE 5 ACRE APARTMENT DEVELOPMENT IN THE BAYVIEW WILDLIFE CORRIDOR

I object strongly to the amended plans for DA2017/1274:
This proposal will still destroy 5 acres of the wildlife corridor and remove more than 140+ remnant trees and threaten 8 endangered species including our Powerful Owls.

This development will cause irreversible damage to the Bayview wildlife corridor and I request it be stopped. This land should be permanently protected from development. This development will be a 5 acre blockage of the wildlife corridor.

Council this is biodiversity land, and a high priority wildlife corridor. Is this large Seniors development which is out of character with the surrounding area, legally permitted on this land?

I have been a wildlife rescuer and carer for 28 years. I am sick and tired of caring for animals that have been injured, and of course killed, due to the continual destruction of their habitat. When will we get a council with caring hearts for our wildlife and concerned for the preservation out beautiful natural environment on the northern beaches. There have to be alternative sites for projects such as this.
