RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

As a Bayview G C member & local resident, I am frustrated by the very slow approval process for the Waterbrook Development which is so crucial to the long term viability of our golf course. However, I am very pleased to hear that Waterbrook have addressed all of the issues raised by the Planning Panel in their revised DA to Council.

The ongoing uncertainty has been a source of instability at the club and continues to threaten our future. This development will reduce flooding and greatly improve the overall environment, plus improve course playability. Also, the development assists in addressing the local shortage of high quality seniors housing. The area needs this development now.
