RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 due to its impact on the area's biodiversity and loss of habitat for local microbats, possums (which suffer stress and can't be easily relocated) as well as the negative effect on the pair of Powerful Owls in the vicinity of the overscale, large planned development. I am also concerned at the potential loss of over 100 trees for this development. This DA has already been rejected by the appropriate Planning Panel and the resources of Council and local residents should not have to be constantly stretched opposing a developer who doesn't want to follow the umpire's decision. The feelings of local residents who are opposed to this DA should be seriously considered.
