RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

DA2020/0661 Proposed Mobile tower in John Fisher Park should NOT be allowed. Say NO to the tower

1. Previous community agreement from council that no towers were to be erected in public parks and reserves
2. Lack of community support: 2 previous attempts yielded overwhelming community opposition to a tower of any kind
3. Insufficient need. No data provided on numbers of people who'd benefit. Emergency calls can be made on any network
4. Adverse visual and social effects. Large numbers of people use and enjoy the park. Residents value the open space and views. Don't block it with a tower.
5. Plan of Management shouldn't allow it. It's too close to the bank of the lagoon in what's called the "ripiarian zone". This area is an area under rehabilitation
6. Undesirable precedent. Once one telco is allowed to build, others may co-locate or be permitted to build more towers in the park.
7. Council agreed in 2008 that no permanent structure allowed in John Fisher park during negotiations with netball hard surface dispute.

Big business Like OPTUS should not be allowed to ruin our amazing park keep the park for the people not big business.
