RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Too many safe havens for our wildlife are being eradicated for the almighty dollar. This is a piece of paradise, in suburbia, for these birds, animals and insects, some which our children may never see the likes of again. Developers don't need this piece of land to survive but they, the animals, birds and insects DO. Leave something for our native wildlife, this little chunk of space, for future generations of flora and fauna and Australians. Green areas such as this are being wiped out to the detriment of society and the future of the human race. We, humans, need to care for our animals, not drive them to extinction.
