RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Hello

I am writing to strongly object to development in what is currently a wildlife corridor. Where are the wildlife to go? Why is it that because animals are without a voice and smaller, that they can have no right to security of home? All species and beings on this Planet desire a territory to set up home for themselves and their young. All species and beings on this Planet are interconnected - we need each other but unfortunately it is humans (well some at least) who have no understanding of this connection. There are far too many people and the demand for more concrete and brick buildings is endless. This continuous development needs to stop - or at least, if you must develop, do so without causing direct harm to another - in this case, precious wildlife. Please look deep into your own souls, show humanity and kindness, get innovative and use your creativity to develop in ways that are sustainable for all and homes for wildlife. It has to stop somewhere at at some time - make it now. Please. I can feel the stress of those animals running for their lives as bulldozers move in - this is no small matter.
