RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to the amended plans of the wild life corridor Bayview. Our wild life need protection. We have already lose many species due to apparent lazy and uncaring folk or perhaps they just don't understand the final outcome to the world we live in - who have been elected by the people to protect all Australians including our wild life, bush, flowers, reefs etc. Please save our Australia for future generations.
