RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

These wildlife corridors were deliberately set aside to protect our Australian native wildlife into future generations. Multi-national companies and overseas interests have no respect or regard for the things that make Australia, Australia. They are only interested in the money they may earn in their own lifetime. Don't join them in betraying Australia. Uphold the decisions made by previous councils to protect our Australian wildlife heritage.
