RE: REV2017/0020 - 51 / 1 - 5 Collaroy Street COLLARROY NSW 2097

With regard to the application I would like the council to note the very limited parking available. The 150m stretch of Collaroy St between the applicant's property and Pittwater Rd is very busy with vehicles, many of them manoeuvring for the very limited number of parking spots. There are numerous competing businesses nearby; most have no off-street parking available. My daughter and I (the occupants) often find ourselves negotiating our way through traffic to our parking spaces under our building. It can be quite hazardous. The proposed development can only worsen the situation.
