RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam

It makes me sad that there is the possibility that buildings may take precedence over a designated wildlife corridor. Basically it's so the developers get Rich. Why people live at the beach and the bush is to be surrounded by nature and have it protected for generations. Otherwise will we all end up in a concrete jungle or space station like the sci-fi movies. It's about time our wildlife were given the value they deserve.

Kind Regards

Toni
