RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I strongly urge you to reject DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species.

These areas are invaluable to preserving our native flora and fauna and providing clean air for the surrounding areas not to mention preserving the beauty and uniqueness of Sydney. To develop this area would be a display gross negligence and disrespect for the invaluable nature of this piece of land and the need to preserve it in its current state for current and future generations both human and otherwise.

I trust you will do the right thing and exercise your duty of care to protect this area and reject this and all future development.

Sincerely,
Sonia
