**RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106**

Good morning

I'm writing to express my concern at the proposed development at 351 Barrenjoey Rd. In keeping with the nature of Newport village, and the increasing pedestrian/dining utilisation of Robertson Road, consideration of public amenity of the site and neighbouring environs should be the priority of our council. At this point it appears that the developer interests aren't well aligned to the community's and will permanently destroy the amenity of Robertson Road - the community will be living with the end result of this building for years to come, and public amenity and preference for Newport village - already articulated in recent meetings - should be prioritised in council's decision making. Many thanks, KRobinson
