RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

The pressure on suitable habitat for many species of our precious and unique Flora and Fauna is unrelenting. In addition to climate, pollution and invasive species, unnecessary development is rapidly depleting available habitat areas to sustain fragile and threatened species.

Therefore I am lodging my objection to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor, home to many vulnerable species.

This is Biodiversity land and should not be destroyed by this development.
