**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I think it's fair to say that the last thing most Sydney-siders want is more development. The only people who want it are developers. Native habitat, bush corridors etc are more than just important for local wildlife - they are important to humans as well. In case it hasn't clicked - trees make people happy. No one wants to live in a concrete jungle. Please do the right thing and put the brakes on yet another development!
