RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species. This is Biodiversity land and should not be destroyed by this development. The economic, environmental and heritage value of this land is far greater if it remains intact than if it is developed. The cost of replacing the many benefits this area provides (in terms of mitigating the effects of extreme weather events, conservation of biodiversity, contribution to general community well-being etc etc), can be measured and would be beyond the means of any Council or State Govt to afford. It would therefore be a reckless decision with irreversible negative consequences to approve the proposed development.
