RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I wish to lodge my objection regarding the proposed development of 7 apartment buildings in the middle of the designated high priority wildlife & coastal corridor, home to many vulnerable species.
(DA1274/2017)

This is Biodiversity land and development of any kind will have significant, substantial and adverse impacts on the environment.

In other words let's not forget that we are not the only creatures with needs on this planet! Inappropriate development is not acceptable and there is no "reasonable" development right in this instance.

Despite the 61,100 signatures presented, suggesting that many believe that this corridor should be preserved, and the Refusal of this DA by the Regional Panel for SEPP Seniors Housing in the Bayview Wildlife Corridor it appears that an appeal has been lodged by the developer with new plans in the Land and Environment Court.

Please consider that any proposed changes to plans still do not consider that this corridor must be preserved as it is at the moment. I strongly urge the Council and the Land and Environment Court consider this perspective and make the ethically correct decision.

Sincerely,

Caroline Castellain
