RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I would like to support the Seniors development. I have lived on the northern beaches all my life and would like to continue to reside here in my later years. To date I have not found a retirement village that is in any way a conducive to happy living. I have investigated Waterbrook as operators and a friend lives in one of there developments, they offer the type of retirement we all deserve, not only beautiful environments but they truly care about their community. Social connectivity is paramount when youre are older and on the Northern Beaches we are so limited with community housing options. I understand Waterbrook's application has gone to great lengths to ensure limited impact is experienced and in some cases like ecological, many improvements are being proposed. I urge you to not listen to self serving neighbours and closed minded community members and approve the development on its merits.

Thank you.
