RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

As someone who regularly visits the Northern Beaches and cherishes the natural beauty of this area, I strongly object to DA1274/2017. It is scientifically proven and also strongly substantiated through global urban planning research that cities are only liveable with green corridors which provide habitat to animals and birds, lower the temperature, control water loss and soil quality, buffer residential areas from wind and of course, create aesthetic beauty. This proposal to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species is utterly criminal. Taxpayers do not support over development in our increasingly threatened green spaces. If your area wishes to retain its reputation as green and desirable this development cannot be allowed to go ahead.

Yours faithfully,

Sascha Ettinger
