RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I lived in Bayview when a fairly new immigrant to Australia in 1963 and gloried in the bush and its wildlife. Occasional koalas visited the trees in the garden and the bird life was prolific. Today with more residential development the suburb has lost much of its wildlife. I cannot believe that it is proposed to remove even more by developing seven apartment blocks.

I object in the strongest terms to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species.

This is Biodiversity land and should not be destroyed or further eroded by any developments for whatever good cause they are presumed to fill. Our natural bush resources are fragile and already much depleted by residential buildings. We should preserve all remaining wildlife areas as responsible custodians of our land.

Yours faithfully

Dawn Linklater
