RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Minister/Council,

I vehemently oppose the DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species. This is Biodiversity land and should not be destroyed by this 85 Unit development."

I am outraged that such a plan would be given any consideration, when the council is fully aware that in approving such a plan, many species would be threatened or killed.

As the council/minister, you have an obligation/responsibility to uphold the fundamental, natural reserves which makes the northern beaches diverse and unique to other such places in Sydney which have been inundated with ugly, high rise structures which disregard the natural landscape. The people who live in the Northern Beaches live there specifically for the connection they can maintain with the Australia's unique flora and fauna.

If you approve such a monstrosity, you will make the Northern Beaches yet another region in Sydney which has lost its uniqueness and biodiversity.

Please, live by your moral conscience to continue to uphold natural beauty that currently exists in Bayview.

Sincerely,
Mrs. Olivia Holland.

Please send your objection " online "to Northern Beaches Council NOW - must be received before 13th October. This development must be stopped.

Lodge your objection , after reading consultants reports , at this link:
